FOUNDATION

GRATITUDE REPORT 2021

National Philanthropy Day (NPD)

is the special day set aside to recognize and pay tribute to the great contributions that philanthropy – and those people active in the philanthropic community – have made to our lives, our communities and our world.

More than \$1.4M in funding made available for priority projects at MHC.

1,462 donors.

Today we honour YOU for your support of MHC!

It has been just over 18 months since I joined the MHC family as President & CEO of the MHC Foundation – *and what an experience it has been!*

While I had hoped to meet many of you in person at our 2021 events, COVID-19 continues to alter even the best-laid plans and we have always been committed to strictly adhering to public-health best practices. That being said, this past year has allowed me to learn about the MHC donor family in an incredibly meaningful way.

Thank you! Since the onset of the pandemic, the outpouring of generosity you have shown to Misericordia has been touching and incredibly appreciated. All the messages of support for our health-care heroes have been passed along to them, and your donations have ensured they have continuously remained nourished – physically and emotionally. Your support brings virtual care to MHC by providing new technology and ensuring patients and residents remain connected to their loved ones, preventing social isolation with enhanced programming and services. Your support also helps MHC visitors feel safe as they walk through the halls in the medical-grade masks supplied to them.

I hope that you read the stories in this report and know how your generosity – at every level – is having a tremendous impact on the incredible work taking place at MHC each and every day. On behalf of everyone who has benefited from your support over the last year, thank you. We are beyond grateful.

Whatever lies ahead, you can rest assured that MHC's commitment to providing exceptional and compassionate care will never waver. Thanks to the generosity of donors like you, those on the front lines will continue enhancing patient experiences by incorporating the latest and best practices to re-envision the future of care. As MHC evolves to meet the health-care needs of our community, I am so honoured to lead the Foundation through this exciting time.

Thank you for being a part of the MHC Foundation family.

With gratitude,

A handwritten signature in black ink, appearing to read 'K. Gladwell', written in a cursive style.

Kris Gladwell, CFRE
President & CEO

LTC **THANKS YOU** Tover the Moon

In the height of the pandemic Misericordia Place residents embarked on a world-wide adventure, walking, pedalling and wheeling their way to virtual dream destinations around the globe. The Around the World in 80 Days campaign raised more than \$80,000 in order to purchase exercise therapy equipment and innovative technology for recreational activities. Winnipeg Canadian Tire Dealers generously donated \$40K – fittingly, the distance required to circle the world!

Recreation manager Jennifer Klos tasked her staff with researching state-of-the-art technology – that wouldn't typically be in their budget – to both engage and challenge Misericordia Place residents. One facilitator requested a Tovertafel, or "Tover" for short, from the Netherlands. Misericordia Place is now home to the only Tover in Manitoba.

"This is quite possibly the coolest thing ever," says Jennifer. "It's a device mounted on the ceiling that projects games and experiences onto a table top that the residents interact with: it senses hand movements and reacts!"

The Tover is loaded with goodies, from games to cognitive challenges: soccer, whack a mole, butterflies that float onto your hand, leaves fluttering from trees, gardens that need tending, fish and birds that need feeding, flowers that expand to the touch – you name it!

Resident Irene Bevan, 89, is most enamoured with the music feature. Her hand slowly glides across the table, with a song playing every time a music note is touched. Her eyes light up and she visibly relaxes watching the notes circle the table.

"She used to play the piano," explains her husband, Richard, who is visiting Irene. "This must bring back memories, you can see an immediate response."

Irene is non-verbal, she doesn't speak, so moments like these are extra special for the entire recreation team. Jennifer and Richard echo the same sentiment to the donors – ***"Thank you for making experiences like this possible!"***

Jennifer and Irene exploring all the Tover has to offer.

ECCE ^{THANKS} YOU

Need achieved

Donors contributing to the Fund-a-Need initiative during the Foundation's InVision event have helped ensure Manitobans receive the best eye care possible at Misericordia with the purchase of a slit lamp camera and Tono-Pen.

Ophthalmologist Dr. Jennifer Rahman, who performs eye surgery at Misericordia's Eye Care Centre of Excellence (ECCE), says the equipment is vital to quality eye care, especially in a high-volume clinic. A Tono-Pen measures eye pressure, "one of the vital signs of the eye," Dr. Rahman says, and is used before and after eye procedures and in screening for glaucoma.

The newest slit lamp camera provided by the generosity of InVision donors, for the clinical resource team, allows doctors to share high-resolution 3D digital photos of the eye with specialists to help the team triage emergency eye issues and allow the correct treatment to begin sooner.

Dr. Rahman says her whole team is grateful to donors. "We couldn't do our work without them, and we greatly appreciate their contribution and the care and support that they show for our work and for the patients. Investing in the community in this way is so important, for now and the future."

"Both my husband and I had cataract surgeries within the last year. The care and compassion shown by the Eye Centre staff was so appreciated and will always be remembered."

Dr. Jennifer Rahman holds a Tono-Pen—one of two pieces of equipment added to Misericordia's Eye Care Centre of Excellence thanks to the generosity of donors.

TCU **THANKS YOU**

Simple connections that make a world of difference

Misericordia Health Centre Foundation donors help make lives better in real ways. During the pandemic, their generosity to our COVID-19 Relief Fund gave residents in Misericordia's Transitional Care Units (TCU) complimentary TV services.

"It has helped with residents being calmed, entertaining them, and when we were closed to visitation it was a source of information of what's going on outside," said Joy Arado-Alberto, TCU Resident Care Manager.

"I'm very grateful to the donors. It has helped tremendously during these times."

Misericordia's 111-bed TCU serves patients who require complex social and medical support for a limited period of time before transitioning home with community services or to a personal care home, supportive housing or elsewhere such as Hospice.

For TCU resident Monica, the TV has been a way to keep up with the news and help her feel less isolated.

"It's a very nice service, and it helps get away from thinking about illness."

*TCU resident Monica is grateful
to have a TV made possible by MHCF donors.*

Monica says donating to improve health-care services at Misericordia Health Centre can impact many people.

"It's your neighbours, your family, it's widespread..."

I think it's very commendable.

I thank the donors."

"During my three months at Misericordia, the nurses really made me feel like I was part of their family. My thanks to the staff – I love you all and keep you in my prayers!"

KIDS THANK YOU

Comfortable hugs made possible

A generous donation by TELUS has made the journey for children having pediatric dental surgery more comfortable and less stressful.

Children aged two to seven spend at least an hour recovering from general anaesthetic, often in the arms of their caregivers, after more than 800 pediatric dental surgeries performed at Misericordia each year. Thanks to the support of TELUS, three new recliners, a child recovery bed, and televisions for a recovery area and quiet room, have only improved this experience.

Patient-care manager Karen Chojno says the new recliners are wider than the old ones, allowing children to be settled and comforted in the arms of caregivers.

“Being in a large health-care facility is new for many of these children and it can be very stressful for them,” said Chojno.

“The bed and the wider recliners make their stay with us so much better. It comes down to caring and showing respect for patients and their families.”

Along with the new furniture and televisions, the TELUS donation was also able to fund take-home packages which include a toothbrush, toothpaste and a picture book to help children understand their bodies and health care.

“The donation is wonderful and has made a real difference for our young patients every day. Thank you!”

Jameson, 2, recovers in the arms of Karen after his pediatric dental surgery at Misericordia. Their recovery time together is more spacious and comfortable thanks to a new recliner made possible by TELUS.

A healthcare worker, likely a nurse or doctor, is shown from the chest up. She is wearing a green surgical cap, a clear face shield, a blue surgical mask, and blue scrubs. A stethoscope is around her neck. Her right hand is in her pocket. The background is a bright, out-of-focus hospital corridor. There are decorative geometric shapes: a pink triangle on the left and a blue grid pattern in the bottom right corner.

“Thank you to all the front-line staff who were wonderful in assisting me in the Community IV Program during the early days of the pandemic.”

STAFF^{THANKS}YOU

Investing in Staff Education

Ambulatory Care physician Dr. Neil Simonsen, who specializes in infectious diseases and wound care, views “medicine as a continuous learning process,” and requires his staff to continuously upgrade their skill levels.

He assigns directed readings as part of academic study and expects his staff to attend conferences to enrich their knowledge of the science of wound care.

To ensure staff have affordable access to training, Dr. Simonsen established an Ambulatory Care Education Fund through the Misericordia Health Centre Foundation.

“Our staff need to be on the cutting edge of knowledge of wound care,” says Dr. Simonsen.

Orthopedic technologist David Carroll, who has worked at Misericordia for 30 years, appreciates the opportunity to attend regional and national conferences to learn innovative techniques and soak up knowledge.

“At conferences, experts share their knowledge about everything ... fractures, surgery, post-care ... it helps me understand the healing process and so much more,” explains Carroll. “I appreciate the support from Dr. Simonsen and our Foundation. Misericordia is an awesome place to work!”

MHC’s Ambulatory Care clinics include a cast clinic and a diabetic foot, complex wound and infectious diseases clinic which provides diagnostic and therapeutic management of diseases.

Dr. Neil Simonsen (left) makes it possible for staff like ortho tech, David Carroll, to attend conferences

Cumulative Donor Wall Listing

From the Eye Care Centre of Excellence to Health Links – Info Santé to long-term care, you have made a tremendous impact on the lives of residents, patients, and all those who walk through Misericordia's doors. Your support plays a vital role in helping MHC continue to provide innovative and compassionate care for all Manitobans.

Together we're shaping the Future of Care,
and we are so grateful for your support.
